# About Us

A family business, where “Proudly Made in the USA” is more than just a slogan.

## People Behind The Scene

In addition to the people that you come in contact with, there are over 40 other people associated with **Nets & More** that you never see and rarely hear about. Our manufacturing plant has over 200,000 square feet of production and warehouse space just half a mile from us in Jonesville, Louisiana. To the best of our knowledge, our manufacturing plant has the largest capacity in the United States for the production of twine, floats, netting, and fiberglass hoops.

## Our Commitment To You

Serving you and keeping you satisfied. That’s our No. 1 goal. We strive to give you the best service and best products available at fair prices. Our commitment to you has been our strength and we are determined to continue our dedication to you. We serve you with people who care. Our friendly, knowledgeable sales team is ready to take your order, answer your questions and find solutions to your problems. We strive to ship orders as soon as possible. We want and appreciate your business. We promise to always strive to give you fast, courteous service, top quality products at fair prices. Please contact us if you ever feel differently.

Nets & More began as The Fish Net Company in the commercial fishing industry in 1981 and has expanded to include all types of industrial nets, sports nets and sports supplies, as well as custom nets. Due to our diversity we now do business as Nets & More. Please rest assured we are the same ownership and staff with the same commitment as before. Our expertise in net engineering and qualified friendly sales staff is committed to satisfying your every net or netting need, as well as commercial fishing needs.

## People That Serve You

Our staff is here to assist you with whatever your needs are. From simply processing your order to helping you decide what best fits your situation. We strive to ship as many orders as possible the same day as they are received, so that you may receive your order as quickly as possible. Our net building department is highly knowledgeable of net making techniques and are very capable of building standard, as well as custom nets to fit your needs.

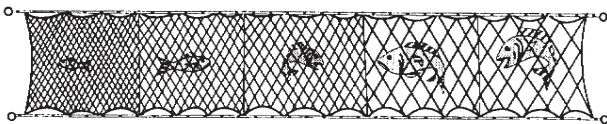

# Custom Nets

**We can build virtually any net you need — to your specifications.**

The Fish Net Company — now with a new logo, and doing business as Nets & More — has the experience and the expertise to provide you with the net you need. Our company manager, Lee Charpentier, (on left), has over 35 years of experience in the net business. Lee will work with you to solve your net needs. With over 40 years in net design and production, Phong Vu, (on right) has retired, but has agreed to consult exclusively with Nets & More. Phong has a Masters degree in net gear design. If needed Lee will consult with Phong to provide you with your best possible net solution.

## Experimental or Sampling Gill Nets

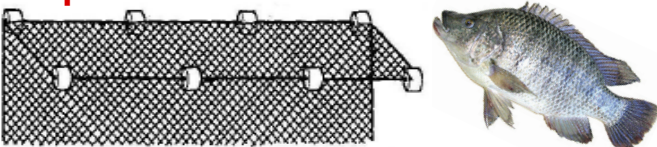

Government agencies, biologist, and researchers use these nets to sample fish populations. These nets, normally consisting of several panels of different mesh and twine sizes, are fished horizontally and can be modified to fish vertically.

## Block-off Nets

Block-off nets are used to prevent fish from escaping or entering a certain area. The netting acts as a wall or a fence to restrict the movement of fish. The floats are normally encased in a sleeve to prevent the fish from escaping between the floats.

## Tilapia Seines with 2 ft Skirts

We can build the tilapia seines to your specifications. Most are made with a 2 ft skirt to keep tilapia from jumping over the net.

## Nylon Spun Twine

A 100% nylon twine made from bulked filament yarn. It has a spun-like quality which improves knot holding and makes it ideal for net hanging and repairing. Spun-Grip has also proven very popular for macrame.

Made in USA

## White Nylon Twine

This top quality nylon seine twine is made to meet the exacting requirements of the commercial fishing industry. It combines high strength, uniformity, and excellent tying characteristics. The twist is set or stabilized with the special heat treatment that prevents raveling or untwisting of loose ends. This same treatment makes the twine especially well suited for net making - no unwanted tensions are imparted to the net.

## Tarred Nylon Twine

This black netcoat treated twine, often called bank line, is resistant to abrasion, mildew, rot, marine growth, and most chemicals. Stiff and at times tacky from the treat this twine has excellent knotting qualities.

Our most popular twine for trotlines. Other uses for this twine include decoy line, net making and mending, workshop, crafts, gardening, construction, and commercial applications. Any place a high quality twisted tarred nylon twine is needed this **Tarred** twine will fill the bill.

## Green Nylon Twine

This green twine is made under the same demanding requirements that are used in making our white twine and then it is dyed before it is put on the spool to assure a uniform, lasting color.

This twine is ideal for trot lines or any place a green color is needed.

\* Overstock Twine on page 81 \*

This twisted twine is treated with a special "Bond" that makes it a little stiff and gives it excellent knotting qualities. The bonding also increases the abrasion resistance of the twine and keeps it from untwisting. Note that the natural color is not necessarily bright white, and tends to turn a bit more beige over time.

\* Overstock Twine on page 81 \*

Colors represent rosary and mason twine.

**LaBayou Twine**

This twine is ideal for saving money when the high quality of our **Super Brand** twine is not needed. This twine is not quite up to the specifications of our **Super Brand**, but is too good to be called seconds. In most cases all that is wrong with it, is a knot or two in the roll.

See page 81 for great prices on overrun twine. The overrun twine may or may not have a knot in the spool.

**Rosary Twine**

This Rosary twine size is #36 with approx 512' on a 1 lb spool. It is made under the same demanding requirements that are used in making our white twine and then it is dyed before it is put on the spool to assure a uniform, lasting color.

**Mason Twine**

This size #18 (test 165 lb) is a 100% nylon line, ideal for laying out foundations, level line for laying brick, and many other construction uses. Don't confuse this line with the "synthetic" line that some hardware stores now sell. This 100% nylon line has the proper stretch, strength, and abrasion resistance that professionals need.

**ULTRA Diving Guideline**

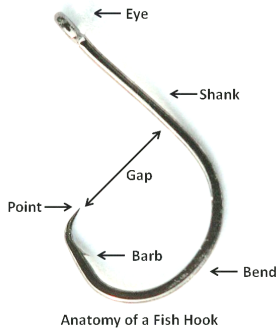

Same material as trade names **Spectra and Dyneema**. Size 18, test strength 420 lb, 1000 ft Diameter 0.058" (1.5 mm). This Ultra-High-Molecular-Weight Polyethylene is more than twice as strong as Nylon, 10 times the abrasion resistance. Natural (white) color.

Kirbed and long shank

We offer Mustad, Eagle Claw, and now LaBayou™ brand hooks in a variety of styles to meet your needs. Nets & More is now having our imported LaBayou™ brand hooks custom made to our specification.

Forged hooks are stronger than regular bent wire hooks and are more likely to break than straighten out. Bent wire hooks are ideal for lots of bottom logs and debris because they can usually be reshaped if they straighten out. Circle hooks are our #1 seller.

The Mustad #31010-DT (Duratin finish) and Eagle Claw #49Z (zinc finish) are generally for one season of fishing. Our longest lasting finish is stainless steel for season after season of fishing.

**Stock # AGG-6 \$34.60 ea.**

# Most Popular Twine and Rope for Alligator Fishing

## Tarred Nylon Seine Twine

Made from 100% nylon, this tarred line is the most widely used line for setting alligator lines. The # 96 is used for hooks up to 10/0. The #120 can be used on 12/0 and larger hooks. Proudly made right here in our own manufacturing facility in the USA.

## Solid Braid Nylon

This braided rope is used by those who want to step above the norm. Because it is braided, it won't untwist when the gator rolls. Braided line tends to last longer than twisted line.

## Gizzard Shad Gill Net

Proudly Made  
in the USA

These nets are designed to catch Gizzard Shad for trotline bait. They are made with #6 (.40mm) monofilament netting and are 6' deep in 1-3/4" or 2" square mesh. You can call for custom sizes.

Sinking nets come with 3/8" float rope and #30 lead core rope. Floating nets come with 1/4" top rope, FL-SB4 float every 6', and #20 lead core rope.

The most popular net is floating style, 50' long, with 1-3/4" mesh, which catches shad about 8" and longer. Check with your local wildlife agent about what is legal in your area.

- Removable 3/4" Styrofoam shell.
- Large insulated hinged door w/cutting board top & tabs for holding pliers & knife (not included).
- Light to carry - tough enough to sit on.
- AG-CB211 model: Dip Net Included

# Agitators

Proudly Made  
in the USA

**Stock # AG-26 – \$320.00 ea** — In ideal conditions **good for up to 125 gallons of water, and 125 lb of fish.** With heavy-duty plastic motor plate. This is a quieter agitator with skirt which eliminates noise. So designed to concentrate all agitation right into the vats. 110-volt fully enclosed 1/20 hp. heavy-duty 1550 rpm. 1.5 amps. fan-cooled continuous duty motor with special factory sealed bearings. Motor designed especially for agitators. Factory built-in 8-foot cord and grommet. Has 5/16" shaft and stout paddle, 10-1/2" x 4" basket, extra-heavy duty replaceable lower bearing centered by precision machinery for perfect alignment. Ring for hanging. Large washer underside motor prevents water entering lower bearing. One year pro rata guarantee. Thermo overload protection. Weighs 8 lb.

**Stock # AG-26PPP – \$350.00 ea** — Same agitator as our AG-26 but it has an added venturi pump on the bottom to double capacity. Therefore this pump will be good for up to 250 pounds of fish/bait.

**Stock # AG-1013 — \$235.00 ea** — This unit has a 6" basket, 13" tall, with a 12-Volt motor. Plastic paddle and brass shaft Fits into the top of any standard size minnow bucket or can be used on 5 to 30 gallon container to haul 500 to 1000 minnows. Fishermen who have these would not do without them. For 5 to 30 gal. of water. Full factory warranty. Weighs 4 lb.

**Stock # AG-90 — \$320.00 ea** — **Good for up to 100 gallons of water, and 100 lb of fish.** Many years of experience and know how has gone into the design of this heavy duty 12-Volt agitator motor. Minnow dealers are rating it at the top in the agitator field. Fan cooled; 3000 RPM; 1/20 HP, 5 amps. with spinner on top. Large splash washer on shaft underside of motor. Plastic paddle with 5/16" brass shaft Heavy-duty bearing inset in bottom of 4" x 10 1/2" basket. Band around top of basket for reinforcement and longer life. Arrow on motor to indicate proper direction of rotation which is a MUST. Factory service life of unit is 2200 hours.

# Chemicals

## Impertech Coat

This Helly Hansen Impertech Guide Coat is a comfortable rain coat made of knit polyester with a stretch polyurethane coating to flex with you as you move.

It features MicroWeld™ seam construction to prevent leaks, and the back cape is ventilated for greater dryness and comfort. The hood tucks into collar when not in use and side zippers allow access to inner garments while hook-and-loop fasteners on the cuffs adjust for a custom fit. The cut also extends to the knees to keep your upper legs dry. Main fabric: PU w/knit backing, 220 g/m².

## Pyramid Traps

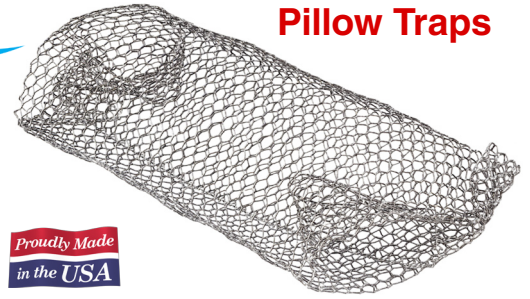

Proudly Made  
in the USA

La Bayou

## Pillow Traps

Proudly Made  
in the USA

Pyramid traps come with a molded easy-grip top. Tops are either 4" tall or 8" tall. 24" traps have an approximate height of 17" to the bottom of the molded top. 22" traps have a height of about 15" to the bottom of the top.

These traps are approx. 14" in width and have 3 flews. The shorter traps tend to catch better because the flews are close together but the longer traps keep crawfish alive longer when oxygen is a problem. We offer a 48" trap with a width of approx. 17" (42" cut) that is very popular with commercial fishermen. The 42" cut trap comes with only 2 flews.

Pyramid Type Crawfish Traps 3/4" mesh - PVC Coated			
19 Gauge Wire - Price Each			
Stock #	Under 100	100 to 499	500 or more
CFT-P24	\$17.33	\$16.46	\$14.81
CFT-P24R	\$22.41	\$21.29	\$19.16

## Block Bait

Block Bait is a soybean based bait, compressed into 4" x 4" square blocks. Due to the compaction, this bait will normally last 2-4 days, but has been known to last up to a week in a net. Most popular is cheese & soybean mixture. Soybean only, which replaces soybean chips, is mainly used as a catfish bait during summer time, and as a scale fish bait (buffalo, perch, etc) year round. Available in standard 12" blocks, or convenient single bait 4" blocks. Freezing will help keep block bait fresh and extend the shelf life. Bait may mold over time, but will not affect the bait.

**A/H** Heavy to ship! Call for estimate.

A 4" block weighs about 2 lb. 24 blocks per case.

## Cheese Trimmings For Hoop Nets & Fish Traps

Proudly Made  
in the USA

100% trimmings — no water added.

Although messy and somewhat nasty to use, cheese is believed to be the best bait for catfish year round. Cheese is often mixed with other types of bait to give it the scent. It can be used to bait up your favorite fishing hole.

Bulk cheese comes in cardboard drums, not always available! In store pick up only.

- 3', 3 1/2', & 4' hoop nets ..... \$12.00 ea
- Hoop nets over 4' ..... \$15.00 ea

### Net Dip

### La Bayou Thinner

### Latex Plastic Dip

- Netcoat is a black asphalt dip, commonly used on hoop nets at a mixture of 2 parts net dip, 1 part thinner. Also used for treating jugs for decoys at a 50/50 mixture.
- Thinner is used to thin netcoat.
- Latex plastic dip is thinned with water at a ratio of 3 parts of dip to 1 part of water. This is what we use for sports nets. Adds superb UV protection.

# Hoops and Materials

## Hoop Steel

- Top Grade Spring Steel
- 1/4" or 3/16" Diameter

**A/H** Bulky to ship! Call for estimate.

1/4" Hoop Steel comes on approx. 50 lb to 60 lb coils. Yields approx. 6 ft per lb.

Stock # HS-G	
Less than 50 lb	<b>\$2.49 lb</b>
50 - 100 lb	<b>\$2.24 lb</b>
100 lb & up	<b>\$2.11 lb</b>

3/16" Hoop Steel comes on approx. 50 lb to 60 lb coils. Yields approx. 10.5 ft per lb.

Stock # HS-G3	
Less than 50 lb	<b>\$2.49 lb</b>
50 - 100 lb	<b>\$2.24 lb</b>
100 lb & up	<b>\$2.11 lb</b>

## Galvanized Couplings

### Stock # HSC-G

1-99 **\$1.50 ea**  
100 up **\$1.38 ea**

Steel couplings are 3" long. Crimp couplings with bolt cutters or hammer flat.

## Nyglass Hoops

Stock #	Size	Width & Thickness	Hoops per set	Price
HPN-204	20"	Approx. Size	4 hoops	\$23.50
HPN-205	20"		5 hoops	\$25.50
HPN-305	30"	3/8" x 3/8"	5 hoops	\$35.50

These Nyglass hoops are virtually indestructible.

**No additional handling fees on these hoops.**

## Fiberglass Hoops — Full Size

Fiberglass hoops are not egg shaped and have no sharp edges. Due to their superiority over other fiberglass hoops, they are often called "extra strong".

# Rope

## About The Various Types of Rope

### Nylon Rope

Nylon rope is known for its strength, elasticity and ability to absorb tremendous shock loads. This rope will not rot and is resistant to oil, gasoline and most chemicals. Along with having good abrasion resistance, nylon rope also has a good resistance to UV rays making it one of the strongest general-use ropes available on the market.

### Polyester Rope

Unlike nylon rope, the polyester rope has low-stretch and maintains strength when wet. This rope will not rot and is resistant to oil, gasoline and most chemicals. Muriatic acid will not dissolve this rope like it will nylon, making it ideal for usage around water treated with muriatic acid. Along with having good abrasion resistance, polyester rope also has a good resistance to UV rays.

### Polypropylene rope

Polypropylene ropes have the ability to float and absorb little to no water. Made with versatility in mind, allowing it to be great for several general-purpose uses. Lightweight and flexible features help with easy handling of the ropes for different projects.

Proudly Made  
in the USA

### Hollow Braid Polypropylene

Braided Poly is our most popular low cost rope. It is strong, durable and easy to splice. Black is the most resistant color to the sun, and the following size spools are in stock for immediate shipment. For green or yellow allow 2 weeks to manufacture.

Size	Dia.	lb Test	Spool Length	Stock #	Price

### Diamond Braid Nylon

This economy priced quality rope has numerous applications. It has excellent strength and is resistant to rot, abrasion, and damage by oil, gasoline, mildew, marine growth, and most chemicals. It works well in pulleys and is more pliable (softer) than solid braid. It is easier to work with in cold weather.

Size	Dia.	lb Test	150 ft. spools		300 ft. spools		600 ft. spools

### Manila rope

Made from the Abaca plant, manila rope captures the imagination of people today as being quintessentially nautical and industrial. Widely used for both practical purposes and aesthetic, manila is a popular choice for everything from landscaping to restoration.

While its absorbent properties cause it to rot faster around water than synthetic fibers, this same quality makes it a desired rope for applications where a good grip is important, as it absorbs perspiration in much the same way as chalk for rock climbers. Even with its lack of resistance to rot, manila remains a popular choice for nautical use due to its strength, UV resistance and lack of stretch.

### Poly-Dacron rope

PolyDac rope is one of the most durable ropes available. Made from polyester-wrapped polyfin, this is an excellent choice for high-strength applications where wear-resistance is key. The polyester covering provides excellent abrasion resistance, while the polyfin innards ensure superior strength durability. Often used as a synthetic replacement for natural fiber ropes such as manila.

Proudly Made  
in the USA

### Ultra Rope

Used for tow ropes, winch line, and any other application where strength and toughness are needed. This rope is often advertised as being 15 times stronger than steel cable. Made of UHMWPE (ultra-high-molecular-weight polyethylene), this rope is made by many companies with the most common trade names of Spectra and Dyneema. Black in color.

Size	Dia.	lb Test	150 ft spool		300 ft spool		600 ft spool	
			Stock #	Price	Stock #	Price	Stock #	Price
#6	3/16"	3,500	RU-61	\$86.81	RU-63	\$166.34	RU-66	\$330.88
#8	1/4"	7,000	RU-81	\$123.37	RU-83	\$241.40	RU-86	\$478.69
#10	5/16"	10,700	RU-101	\$189.92	RU-103	\$375.98	RU-106	\$744.89
#12	3/8"	13,500	RU-121	\$270.41	RU-123	\$536.83	RU-126	\$1073.77

Danger: due to kinetic energy and the low stretch of Ultra rope, the whiplash from this rope is very dangerous. Do not tie to an object with slack in the rope and get up some speed before taking out the slack. This will pop the rope and cause a dangerous whiplash.

Proudly Made  
in the USA

### Solid Braid Nylon

This heavy duty rope has numerous applications. It has excellent strength and is resistant to rot, abrasion, and damage by oil, gasoline, mildew, marine growth, and most chemicals. Used extensively for engine starter cord, this rope can be used anywhere a strong, durable rope is needed.

# Survival Gear

The most common type survival net is the gill net. Gill nets are vertical panels of netting normally set in a straight line. Fish may be caught by gill nets in 4 ways:

- 1) wedged - held by the mesh around the body
- 2) gilled - held by mesh slipping behind the opercula (Most common)
- 3) tangled - held by teeth, spines, or fins without the body penetrating the mesh
- 4) pulled along the shoreline as a seine to collect a group of fish

To use a gill net simply string it between 2 anchor points and allow it to hang straight down in the water. The top of the net does not need to be at the surface of the water. The net can be strung across a stream, pond, or lake.

In the event no bodies of water is present, the net can be used to catch birds. Simply string it in between 2 trees. For birds such as quail, hang down low. Spook or drive the birds towards the net. With some effort and imagination, the net can also be used to catch rabbits and other small game.

Gill nets are extremely effective and their use is closely regulated by fisheries management and enforcement agencies. When using a gill net in a survival situation, be careful not to catch/keep more fish than can be used or preserved.

In an effort to meet everyone's needs, we offer 5 standard nets ranging from the Hiker to the Doomsday prepper. All 5 nets are made out of nylon due to it being lighter and more effective than monofilament. All nets come assembled and ready for use. If you feel none of these nets fit your needs, simply call us at 1-800-256-5256 and explain your specific situation and what you think your needs are, and we will be more than happy to custom make your survival net.

The "Hiker" is a small, extremely light weight net (less than 3 oz.) that is 1 1/2" sq mesh measuring 3.5' H x 23' L. The net comes with a top and bottom string attached. It is perfect to toss into a back pack for emergencies without adding bulk or weight.

**Stock # SG-351523 \$23.95 ea**

The "Camper" is a step up in size that is 2" sq mesh measuring 4' H x 50' L. This is a flag type gill net. The net comes with a top string tied in. It does not have a bottom string. See page 47 for more information on how to fish.

**Stock # SG-42050 \$31.95 ea**

The "Survivalist" is once again a step up in size that is 2" sq mesh measuring 6' H x 75' L. The net comes with a top and bottom string tied in.

**Stock # SG-62075 \$87.95 ea**

The "Prepper" comes in 2 mesh size options. Both nets come with a float rope and lead core rope tied in. The first option is a 2" sq mesh measuring 6' H x 100' L.

**Stock # SG-620100 \$168.95 ea**

The second option is a 3" sq mesh measuring 6' H x 100' L. The larger mesh allows smaller fish to pass through while catching the larger ones.

**Stock # SG-630100 \$156.95 ea**

## Trotline Kits

**PRO25B**  
 150 feet of **tarred braided** 500 lb test main line  
 25 size 2/0 forged corrosion resistant hook

## Fire Starter

- Flint
  - Magnesium fuel, burns at 5400 degrees F
  - Serrated blade for producing magnesium shavings
  - Instructions included
- Stock # SG-FS \$6.95**

See page 10 for more trotline kits.

## Ship 'N' Shore Fish Tote

Stackable totes, great for icing down fish or seafood. Nest inside themselves when not in use for easy storage. 100 lbs capacity, size 31" x 18" x 11".

Stock # **FB-T** — \$35.95 ea,  
12 or more — \$32.36 ea.

## Bungee Cord

Bungee cord is 1/4" diameter nylon. Great for strapping down covers, tarps, and light loads. Works great with our plastic hooks.

Stock # **HN-B25**  
Under 25' \$0.50 per ft  
Over 25' \$0.45 per ft

## Plastic Hooks

Great to use with our Bungee cord.  
Small hook  
Stock # **HN-HOOK** — \$0.55 ea  
or pkg of 100 — \$52.00

Large hook  
Stock # **HN-HOOK2** — \$0.55 ea  
or pkg of 100 — \$52.00

## Burlap Sacks

**Large** — 28" x 38"  
Brown burlap sacks, may have a print, designs may vary.

Stock # **BURLAP2** — \$2.75 ea

**Small** — 19.5" x 32"

Brown burlap sacks, drawstring with clasp. may have a print, designs may vary.

Stock # **BURLAP4** — \$2.25 ea

## Headlamps

**Nets & More Boolye 300** Delivers a lot of light in the smallest package. High and Low brightness levels • LCD display with backlight • shows battery power reserve in hours and percent • **13+** hours on high • 20 hours on low • Lithium battery for high capacity and easy recharging • Two USB charger cords included • Adjustable head band for comfort • LED bulb service life: 100,000 hours • Weighs only 3 ounces

Stock # **LT-B3** \$42.00 ea

**Nets & More Boolye 500** Super bright LED headlamp. 500 lumen • Tight beam • 9 hours on high • 14 hours on medium • wall charger • Adjustable head band • Blue and orange color filter

Stock # **LT-B5** \$60.00 ea

**Nets & More Boolye 1000 ULTRA** bright LED headlamp. 2000+ lumen • Tight beam • 10 hours on high • 20 hours on medium • 30 hours on low • 2 x USB cords and USB wall charger • Adjustable head band

Stock # **LT-B10** \$90.00 ea

### VTS 10 Watt

Extremely bright. This light also has a large reflector, and it makes a tight beam of intense light. Brightness can be adjusted to 100% or 50% with the push of a button • Two intensity settings • Compound LED module with 48 chips for extreme intensity and efficiency • LCD display with backlight, displaying battery power reserve in hours and percent • Lithium battery for high capacity and easy recharging • 1 wall charger • 1 usb charger cord • Includes 4 color filters: red, yellow, green, and blue • Large reflector for a nice, tight beam • Adjustable head band for comfort • LED bulb service life: 100,000 hours

Stock # **LT-10W** \$90.00 ea

**VTS FROG** The unique feature of this light is that it has a very large reflector which makes a tight beam of intense light. The intensity can be regulated with the rheostat on the housing.

Its huge LED bulb consists of 72 individual LED chips, making it highly efficient and uniquely powerful. • Rheostat for convenient brightness adjustment • Run time on low: 100 hours, on high: 10 hours • Lithium battery for high capacity and easy recharging • 1 wall charger • 1 usb charger cord • Includes a light on top for safety and visibility • Huge copper reflector for a nice, tight beam • Adjustable head band • LED bulb service life: 100,000 hours

Stock # **LT-FROG** \$145.00 ea

Twine #36 made with 350 lb test string.  
Twine #60 made with 560 lb test string.

## Deer Stand seat netting

Most comfortable seat ever made. Made from 100% nylon netting. The netting has been dyed black. One pound of netting will make approximately 2-3 seats. **Directions:** Stretch netting around seat frame, cut to length, tie together with twine.

**Netting:** N36B-37012 \$11.00/lb

**Twine:** TWT-30Q \$3.54/spool (1/4 lb)

Pre made seats are available in the following widths:

\* May require disassembly of stand.

Stock #	Description	Price Ea.
ALL-16	21" wide	\$10.00
ALL-19	24" wide	\$10.00

## Decoy Cord

This black netcoat treated twine is resistant to abrasion, mildew, rot, marine growth, and most chemicals. Stiff and at times tacky from the treat this twine has excellent knotting qualities. TWT is twisted, TWI is braided twine.

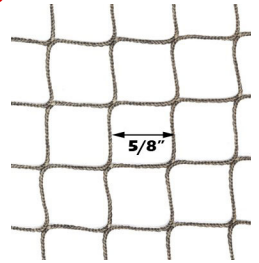

Uses for this twine include trot line, decoy line, net making and mending, workshop, crafts, gardening, construction, and commercial applications. Any place a high quality tarred nylon twine is needed this **Tarred** twine will fill the bill.

# Gill Nets

ALL OF THESE NETS ARE MADE IN U.S.A.

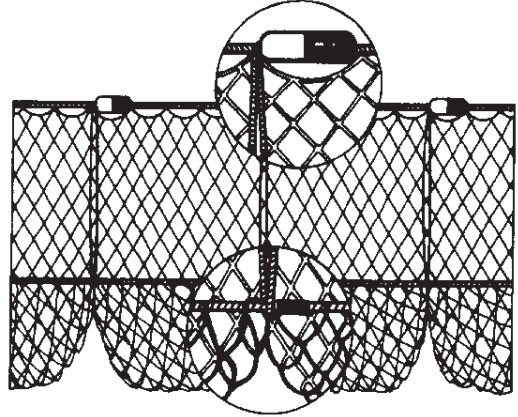

Here at **Nets & More**, we assist fishermen daily in choosing the right type gill net for their particular job. Since there are several different types, we can build a net to fit your need, usually regardless of the specifications.

## Flag Net

The least expensive type of gill nets is the **Flag Net**. This net is made of a single sheet of netting, that is suspended by a top string only and is allowed to sink into the water by its own weight. Thus, a flagging type appearance in the water. As this net has no floats or bottom rope, it is the most difficult of the gilling type nets to keep from rolling up in the wind or current. This net must be fished in still water when there is no wind. However, in the last few years, commercial fishermen have been returning to this type net in Monofilament netting, as monofilament does not roll as **bad** as the nylon netting.

## Tie Down Gill Net

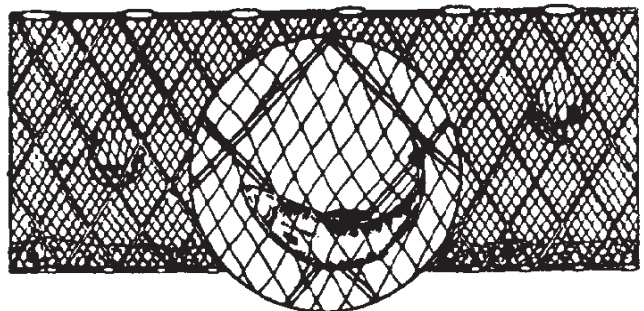

The next step above a leaded gill is the **Tie Down Gill Net**. A Tie Down Net is normally constructed the same as a leaded Gill with the addition of a **string every 6'** that runs to the bottom of the net and is used to reduce the depth of the net by several feet. This forms slack or bag in the netting. So, when a fish eased up to this net, there will be some netting material loose in the water in which the fish may become entangled. *Dollar for dollar, yard for yard, we believe this is one of the best Gill Net purchases you can make.*

## Leaded Gill

The next step up from the flag net is the **Leaded Gill**. This is the same netting as is used in the flag nets, but a rope is used on top and bottom and it is customary for this to have floatrope and lead. The main disadvantage of this type net is that it is like a wall in the water and particularly in fresh water the fish will ease up to this net and then back off. It seems that most of the saltwater species of fish are more aggressive than the fresh water fish as they will generally take this type of netting better. *It is also ideal for Gar; either fresh or saltwater.*

## Trammel Net

The most complex and expensive gill net is the **Trammel Net**. This is a 3 wall net. The lighter gill netting is sandwiched between 2 larger walls of netting. This means that wherever a fish runs into the net, he will make a bag around himself, even if he doesn't gill as he would in the other type nets. To the fisherman, this means a wider range of fish size and a net that will catch and hold more fish. The Trammel Net is a favorite for Commercial Fisherman.

# Flag Type Gill Nets

## Features for "Flag" Type Gill Nets

- 600 or more feet of netting per 300 feet of net.
- # 24 nylon top string.
- # 9 hanging string with plenty of drop.
- No bottom string.
- No lead.
- No floats.

## Monofilament VS Nylon

A tough decision for some fishermen is whether to use Conventional Nylon or Monofilament Netting. Monofilament is also referred to as Glass or Cat Gut netting. Naturally, they both have good features and some disadvantages. First, Nylon is more limp and will bag a fish a little easier than Monofilament. This means a wider range of fish size. Nylon is harder to keep clean because sticks and cockleburs do hang in this type netting. Monofilament is not quite as strong as nylon, but in clear water, fish will hit the monofilament better because they can't see it as well. Sticks and cockleburs will fall right out of monofilament netting just by shaking it. Since monofilament is a single strand, it is harder on your hands and more difficult to see when taking your fish out. To sum it all up, if you are fishing clear water, or having trouble with sticks and trash in your nets, a Monofilament Net will work better for you.

# Monofilament Leaded Gill Nets

Fish Picks for Gill Nets

## Features for "Leaded Gill" Nets

- 600 or more feet of netting per 300 feet of net.
- 3/8" floatrope top line.
- 30 lb lead core rope lead line.
- Netting hung to full depth, no bag.

## Gizzard Shad Gill Nets

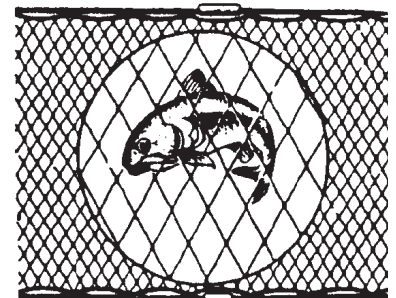

These nets are designed to catch Gizzard Shad for trotline bait.

They are made with #6 (.40mm) monofilament netting and the most popular nets are 6' deep in 1-3/4" or 2" square mesh. Other depths, lengths, netting sizes, and mesh sizes are available.

Standard nets are sinking style with 3/8" float rope and size #30 lead core rope. Floating nets come with 1/4" top rope and FL-113 float every 6', and size #20 lead core rope.

The most popular net is floating style, 6' deep, 50' long, with 1-3/4" mesh which catches shad about 8" and longer. Check with your local wildlife agent about what is legal in your area.

Mudline for muddy bottoms — Add \$1.00 per foot.

10% discount on 300' or more.

### Bags for Seines (Sometimes called a pocket)

A bag is a box-shaped section of net. Bags are generally made the full depth of the seine and usually located in the center of the seine. As a seine is being pulled through the water, the fish are herded toward the center of the net. When landing large catches of fish, a center bag will improve the efficiency of your seine.

NOTE: Bags will automatically have leads and floats across the mouth (opening). The following chart is for the convenience of customers who would like to know the cost of seines with bags. The size of bag should be same as depth of seine.

Normally, bags have leads and floats only on front.

**Bag Size Price of Bag (PLEASE SPECIFY)**

4' x 4' x 4' Same price as 24' of seine

6' x 6' x 6' Same price as 36' of seine

8' x 8' x 8' Same price as 48' of seine

10' x 10' x 10' Same price as 60' of seine

12' x 12' x 12' Same price as 72' of seine

Example: 100' x 6' seine with a 6' x 6' x 6' bag would be the same price as a seine 136' long (100' plus 36' = 136'). The bag adds to length of seine.

Added leads and floats around sides and back of bag:

**Bag Size Price of Leads and Floats around bag**

4' x 4' x 4' add \$58.00 per bag

6' x 6' x 6' add \$86.00 per bag

8' x 8' x 8' add \$115.00 per bag

10' x 10' x 10' add \$158.00 per bag

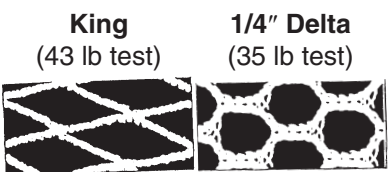

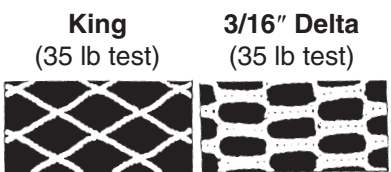

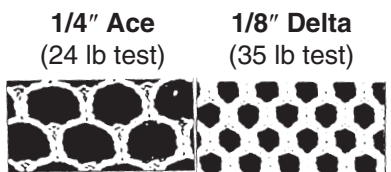

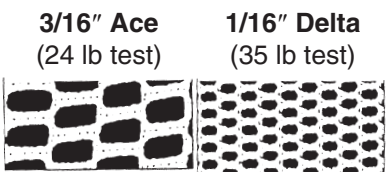

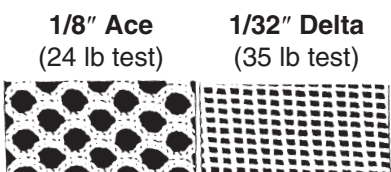

12' x 12' x 12' add \$206.00 per bag

**1/4" Ace mesh 4' deep**  
**15', 20', 25', 30', & 50' lengths.**

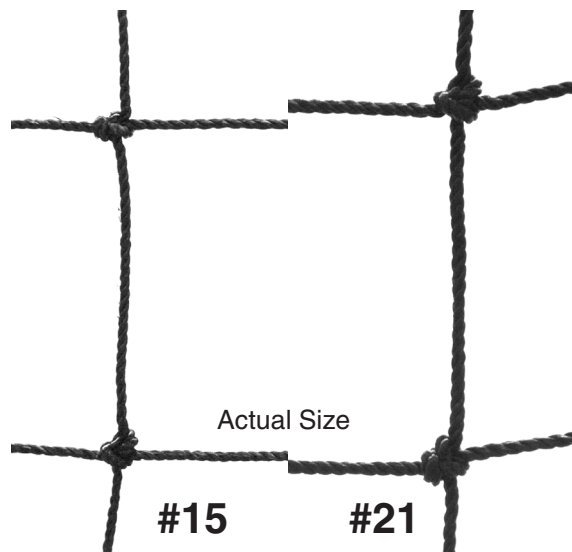

### Tips for Ordering Seines

When ordering seines use the grading chart to select the correct mesh size. When figuring the length, the rule of thumb is to order the seine 1/3 longer than the widest point you plan to seine. The same applies to the depth, the seine should be approximately 1/3 deeper than the maximum depth of the water. These are only tips to help you to order the correct size seine for your needs and may not apply to all situations.

- High abrasion resistance
- Life expectancy 12 or more years
- Black vinyl coating
- Ball containment rope on bottom
- Three ropes along the top
- Custom sizes available
- Cable Option: clips on top ropes every 5'

# Ultra Batting Cages — Square Mesh

ULTRA (UHMWPE) is the latest in high performance fibers. The most common trade names are Spectra and Dyneema. This is the fiber of choice for most bullet proof vests. Many major leagues prefer this material over nylon.

## #18 (1.5 mm) — 420 lb test twine — 1 7/8" mesh

- The best UV protection
- High abrasion resistance
- Life expectancy 15 or more years
- Black vinyl coating
- Ball containment rope on bottom
- Three ropes along the top
- Custom sizes available
- Cable Option: clips on top ropes every 5'

# “Over the Frame” Batting Cages

A batting cage so affordable everyone can have one

Inside

Outside

## 10' High x 10' Top x 12' Bottom Cages

Stock #	Description	Price
S-OTF1550	#15 x 50' Batting Cage	\$686.48
S-OTF1570	#15 x 70' Batting Cage	\$864.22
S-OTF2150	#21 x 50' Batting Cage	\$958.77
S-OTF2170	#21 x 70' Batting Cage	\$1196.29
S-OTF3650	#36 x 50' Batting Cage	\$1360.21
S-OTF3670	#36 x 70' Batting Cage	\$1710.63

**Poles and spike nails not included.**

**Wind clips, rubber tips, and easy door are included.**

- Originally designed for backyard use, this net can be used by school leagues and minor leagues. The net comes with everything you will need (except the poles) to install it inside a building or in a backyard in less than 1 hour. Buy your poles, (3/4" EMT conduit) at local hardware store (Home Depot or Lowe's). You will need (28 poles for 50' cage and 38 poles or 70' cage.)
- Choose from #15 (personal), #21 (high school or summer leagues), or #36 (college).
- Totally portable and can be used indoors or outdoors.
- The cage is about 10' tall x 10' wide at top and 14' wide at bottom with lengths of 50' or 70'.
- The netting is knotted with 1 7/8" mesh. (#15 nets are 1 3/4" mesh) The yarn is UV treated and the netting is treated with our special protective coating that resists weather, provides UV protection and improves abrasion resistance for years of use.
- The netting is stretched over the outside of the frame which means more usable space.

# Backstop & Foul Ball Nets

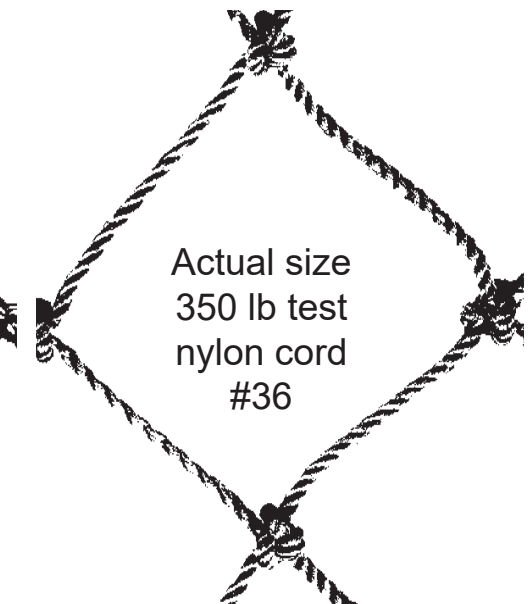

Catch foul balls, home runs, and protect your scoreboard by using these backstops in the outfield. These nets are made of 100% nylon and treated with our special coating to add weather resistance, UV protection, and improve abrasion resistance for years of continuous use. All nets are standard black. Nets come with a poly rope border and snap hooks in the corners for ease of hanging. When suspending nets from cable, use stainless steel C-rings every other mesh or cable ties 10" apart. Backstops can be custom made to fit your needs. Please phone for prices of sizes not listed.

# Nylon Backstop & Foul Ball Nets

## Square Mesh

Catch foul balls, home runs, and protect your scoreboard by using these backstops in the outfield. These nets are made of 100% nylon and treated with our special coating to add weather resistance, UV protection, and improve abrasion resistance for years of continuous use. All nets are standard black. Nets come with a poly rope border and snap hooks in the corners for ease of hanging. When suspending nets from cable, use stainless steel C-rings every other mesh or cable ties 10" apart. Backstops can be custom made to fit your needs. Please call for prices of sizes not listed.

# Ultra Backstop & Foul Ball Nets Square Mesh

ULTRA (UHMWPE) is the latest in high performance fibers. The most common trade names are Spectra and Dyneema. This is the fiber of choice for most bullet proof vests. Many major leagues prefer this material over nylon because the superior strength allows for smaller twine sizes to be used, improving fans' views.

Catch foul balls, home runs, and protect your scoreboard by using these backstops in the outfield. These nets are made of ULTRA and treated with our special coating to add weather resistance, UV protection, and improve abrasion resistance for years of continuous use. All nets are standard black. Nets come with a poly rope border and snap hooks in the corners for ease of hanging. When suspending nets from cable, use stainless steel C-rings every other mesh or cable ties 10" apart. Backstops can be custom made to fit your needs. Please phone for prices of sizes not listed.

S-P7N60	7' #60 net only .....	\$115.50

This multipurpose, portable base protector/backstop has many uses. Can be used at any base to protect fielders from injury while receiving throws during batting practice, or as a moveable backyard backstop. Comes with a 350 lb test or 560 lb sock type net for easy installation. Treatment of these nets with our special coating add weather resistance, UV protection, and improve abrasion resistance for years of continuous use. The frames are made of heavy gauge 1 5/8" galvanized pipe. Ideal for use behind the batter in a batting cage for extended life of your batting cage. Nets are black in color.

# Net Saver Backstops

Protect the heavily used area of your batting cage from damage of un-hit balls. These heavy duty backstops are made with 350 lb or 560 lb test nylon netting. Treatment of these nets with our special coating add weather resistance, UV protection, and improve abrasion resistance for years of continuous use. Nets come with a 5/16" braided rope border and a metal clip in each corner for easy installation. As the net shows wear just turn 1/4 of a turn and keep on pitching. Ideal for use behind the batter in batting cages or may be used alone. **Custom sizes available by request.**

# Pitch Pro!

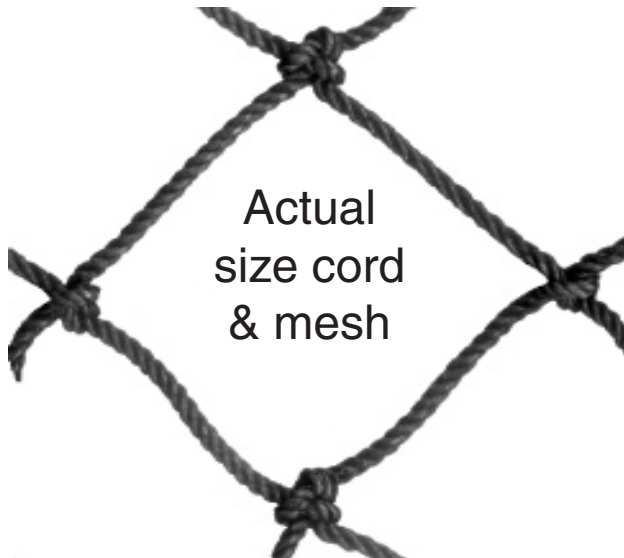

Develop your young pitcher quickly with regular use!

This extra large 6' x 6' combination pitch-back/catcher can provide many hours of fun and worth while practice by improving throwing accuracy. Strike zone cutout with sock/catcher encourages concentration and accuracy for pitching to the strike zone. Pitches thrown in the strike zone are held by the sock/catcher. Pitches outside the strike zone are returned as grounders to develop fielding ability from the pitching position. Rope border included for additional strength. Uniquely designed, long lasting EPDN tensioners and S-Hooks provide lively pitch back and quick ball return. Net is made of heavy durable poly netting for years of continuous use. Frame is made of sturdy 1 5/8" heavy gauge galvanized pipe.

S-PP	Complete Assembly .....	\$286.00
S-PPN	Net Only .....	\$104.50
S-PPT	Replacement tensioners & "S" hooks .....	\$22.00 (pack of 50 each)

**Netting is made of 250 lb test, UV treated polypropylene cord**

## Soft Toss Practice Net

## Custom Nets & Frames

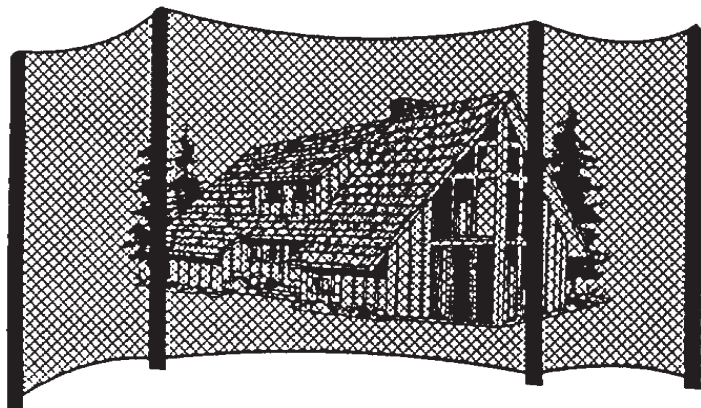

If you have or have seen a net or frame that interest you, [give us a call or fax us a diagram](#). Our personnel are highly knowledgeable in net and frame making techniques and very capable of customizing nets and frames to meet your demand.

# Golf Nets & Accessories

## Heavy Duty Golf Screening Nets

These nets act as a screen or barrier to prevent stray balls from hitting spectators or damaging property. They aid in controlling the number of lost balls. These nets are used by golf courses, driving ranges, and parks. They are constructed of netting made from 84 pound test nylon cord, 1" square mesh with a rope border on all four sides, and a metal clip every 10' on top and bottom for ease of hanging. Simply snap the clips on to the cable and stretch the net out like a shower curtain, then tie off the net at each end. Weatherproofed and UV treated for long life.

Length	10 ft High		25 ft High

## Heavy Duty Golf Backstop

Trim your scores! Improve your swing! The frame is constructed of sturdy 1 3/8" galvanized pipe. Extra large frame is 10' W x 10 1/2' H. Net is made of a sturdy 200 pound test nylon cord, 7/8" square mesh, and treated for abrasion resistance, water resistance, and UV protection. Extra bag in the net provides additional cushion for those hard drives. Heavy duty rope border provides additional strength and durability. Easily assembled or disassembled.

- S-GB Net & frame ..... \$261
- S-GBF Frame only ..... \$132
- S-GBN Net only ..... \$162

Also great for baseball/softball soft toss practice.

## Heavy Duty Driving Net Only

Actual size mesh — 200 lb test twine

These heavy duty nets are made of 200 pound test cord, 7/8" square mesh, complete with poly rope border ready to hang. These golf driving nets are extremely rugged, durable and coated for increased weather resistance.

- S-GB211010 10' x 10' ..... \$145
- S-GB211015 10' x 15' ..... \$188
- S-GB212025 20' x 25' ..... \$462
- S-GB212050 20' x 50' ..... \$848

# Outdoor Play

Nets & More is thrilled to introduce its latest innovation, the Up & Over! This exciting new feature is designed to bring endless fun and adventure to children of all ages. Perfectly suited for a wide range of environments, these features are ideal additions to amusement parks, water parks, playgrounds, zoos, RV parks, summer camps, and especially agritainment parks. Whether you're planning a day of excitement at a theme park or looking to enhance the playful atmosphere of your local playground, they promise hours of entertainment and joy.

Not just for kids; these features are also fantastic attractions for the young at heart. Dynamic designs encourage active play, imagination, and physical exercise, making it a hit with both children and adults. The sturdy construction will draw attention and create memorable experiences for all visitors.

Ready to take your venue to the next level? Contact Nets & More today for pricing and additional information. Let's bring the joy of play to your community!

## Up & Over

## Spider Web

## Large-Ball Barrier Nets — Diamond Mesh

Ideal for Basketball, Football, Soccer, or Volley Ball, these large mesh (4" sq.) nets are made of 200 lb test nylon cord, have a 5/16" poly rope border and a snap hook in each corner. Treated with the same great weather protection as we use on our other sports nets. When suspending nets from cable, ask for metal clips to be placed every 5 to 10 feet. Clips may be added at a cost of \$1.50 each.

# Net Life Expectancy

## We sell only USA made Nylon.

**Nylon** is the most common material used in sports nets. There is much "import" nylon on the market. This "import" nylon is often of a much lower quality than USA made nylon. Often this "import" nylon has only half the strength of USA made nylon. "Import" nylon often does not have the UV resistance of USA made nylon. (Some companies substitute polyester for nylon when nylon is hard to get. Good, but not as good as nylon.)

**PE** (polyethylene) is sold by many companies because it is cheap. (Polypropylene is about the same as PE.)

**Ultra** is the latest in high performance fibers. It is starting to gain in popularity, but it is still relatively expensive. Kevlar was the first high performance fiber used, but Kevlar does not have the strength and UV resistance as the more modern UHMWPE (ultra-high-molecular-weight-polyethylene) fibers that we call "Ultra". Ultra is manufactured by many companies with the most common trade names of Spectra and Dyneema.

# Decorative Nets

These nets can be used to decorate a restaurant wall or would be perfect for prom or banquet decorations. The nets are light brown in color. The bulk netting is light brown and is sold by the pound. When you buy netting from us, we give you enough to cover the area you want to cover. Some companies send you only the stretched feet of netting.

molded resin, approx. 18" L  
**Stock # DK-72001**  
**\$25.24 ea**

# Cannon/Rocket Nets

These nets are used for capturing birds for counting, testing and/or relocating. Made with 120 lb test netting, these nets have a 1 3/4" square mesh size. All nets are made with a 2' skirt on all 4 sides and have a 5/16" braided nylon rope border. We do build cannon nets for pigeons as well, call for pricing.

They come rustic brown in color for help with camouflaging. We make our nets so that rope kinking is at a minimum. This helps keep the net from hanging up when firing. Standard net comes with 4 tie downs and 3 bridles for rockets. **Custom sizes available.**

Net Size	Stock #	Price
30' x 50'	BN-CN3050	\$976.50
40' x 50'	BN-CN4050	\$1023.75
40' x 60'	BN-CN4060	\$1244.25

## Homestead

### Garden Trellis Nets

Great for growing pole beans on, as well as other vegetables! 4 1/4" square mesh, so you can reach through it. Cheap enough to be disposed of at the end of the season.

Depth	Stock #	Price per ft
6'	GN-6	\$0.33

\$4.00 cutting charge for less than 300 ft

### Utility String

Great for gardening, crafts, home shop projects, hobbies, boating, fishing, construction, and hunting. Strong durable, long lasting, UV resistant, rot resistant, & abrasion resistant

Twine size	App. ft per roll	Stock #	Price Per Roll	
			Under 12	12 & Up
#17 White Twisted Polyester	1500'	TWU-17	\$5.45	\$4.91
#36 Black Spun Grip	600'	TWX-42	\$14.16	\$12.74

### Chicken Coop Nets #21 Black 4" sq mesh

Protect your fowl from birds of prey by covering your chicken coop or run with this netting. Made with 200 lb test twine, this netting has a 4" square mesh that will keep out hawks and eagles. Unlike others that have to be replaced year after year, this netting is 100% nylon and will last for years. Netting comes with rope for the border, lashing cord, a netting needle for lashing the net, and instructions. Can be used for dog kennels and other animal runs as well.
